

The listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (Canceled)
2. (New) A retaining wall block for use in forming a retaining wall having at least a lower row and an upper row, said block comprising:  
front, back, left, and right body portions forming a void within an interior area of the block; and  
a plurality of tabs located on an upper surface of said block, said plurality of tabs operable to be received by the void of a block of said upper row, and wherein said plurality of tabs are located rearward of the void of said block.
3. (New) The block of claim 2, wherein said plurality of tabs are substantially rectangular.
4. (New) The block of claim 2, wherein a lower surface of said block is substantially planar.
5. (New) The block of claim 2, wherein said plurality of tabs are operable to receive a portion of a geogrid.
6. (New) The block of claim 2, wherein a front face of said plurality of tabs aligns with a rear interior face of said void.

7. (New) The block of claim 2, wherein the plurality of tabs are arranged laterally between the left and right body portions.

8. (New) The block of claim 2, wherein said front, back, left, and right body portions comprise:

exterior side faces; and  
interior side faces.

9. (New) The block of claim 8, wherein the plurality of tabs are located forward of the exterior face of said back body portion.

10. (New) The block of claim 8, wherein said plurality of tabs comprise front, back, interior, and exterior faces.

11. (New) The block of claim 10, wherein the exterior face of one of said plurality of tabs aligns with the exterior face of said left body portion.

12. (New) The block of claim 10, wherein the exterior face of one of said plurality of tabs aligns with the exterior face of said right body portion.

13. (New) The block of claim 10, wherein the interior face of one of said plurality of tabs aligns with the interior face of said left body portion.

14. (New) The block of claim 10, wherein the interior face of one of said plurality of tabs aligns with the interior face of said right body portion.
